

Status Report for Project #1 – SimPlus Extension

Students: Daniel Sinclair, Mark Randles

Supervisor: Dr. H. Rajaei

Dept. of Computer Science
Bowling Green State University, Ohio
Spring 2005

Report Date: 03/12/05

1. Current Status

We have completed the first phases of the project, and are working on further parts of the project. Done are the new RNG (FileRNG), an Image class, and modifications have been made to other files as needed. Also nearly all the code for a calendar queue has been written and is in need of testing.

2. Changes from Previous Meeting

Nothing has changed.

3. Accomplishment of objectives from Previous Meetings

All work has been caught up from the week previous. New phase underway.

4. To Do by the next week

Polish what is currently underway, and begin work on the third phase work. Begin to document.

5. Risk analysis

- The time is looking good

6. Time Frame Control

Slightly behind schedule, but nothing of concern.

7. Related Documentations

- N/A
